### Top Seoul Exhibitions at Peres Projects Paolo Salvador: “Misterios inscritos en tela”

*September 7 – November 12, 2023*

Peres Projects unveils an enchanting show by Lima-born and Berlin-based artist Paolo Salvador, currently on view through November 12. Titled “Misterios inscritos en tela (Mysteries inscribed on cloth),” the visually arresting series unites a myriad of inspirations, such as artist Francis Bacon’s haunting figures, the enduring mysteries of mother nature and the cosmos, as well as postmodern philosophy. Peruvian culture and geography are layered throughout the series, as colorful, hypnotic landscapes ebb and flow with fluid human figures and animal forms. A notable triptych, *Los misterios del horizonte permanente (The mysteries of the permanent horizon)* (2023) unfolds in softened shades of teal, blush, and sapphire, while sensuous feline and human figures impart the magic of memory, individual perception, and infinite time.
